

CORRIGENDUM

1. The Steering Committee of CBT in AIIMS, Mangalagiri had taken a considered decision not to publish Question Paper and/ or keys, because the syllabus adopted for various posts contain topics on which only limited number of questions are possible in the long run. Accordingly the notification dated 03-05-2019 did not mention provision of any objection tracker methodology.
2. After the examination, it has been discovered that inadvertently, the admit card included the provision of objection tracker link at Sr. No: 8. On the basis of this, a website notification was published on aiimsmanagalagiri website requesting objections of candidate on recruitment cell email ids. However, on review, is that the notification does not provide for such procedure. Accordingly the candidates are advised not to send queries to the recruitment cell. The notification dated 25-09-2019 has since been removed.
3. In order to accommodate the EWS candidates in Nursing Officer Gr II without disturbing the reservations in 50 posts, additional 5 posts have been increased. Further as mentioned in the Scheme of examination a skill test is planned, which will be of qualifying nature only.
4. The candidates are further informed that towards enabling trust and confidence in the CBTs, AIIMS Mangalagiri has ensured preparation of "raw – results" at the earliest possible time. The final results (with category wise reservations) are also expected to be ready within next 10 days."
