**Prof. (Dr.) T. S. Ravikumar,
Advisor/Special Officer, AIIMS**

**(Ex Director JIPMER & present
Director cum VC, SVIMS, Tirupati)**

It is my distinct pleasure to invite the future leaders of healthcare in India to AIIMS Mangalagiri on behalf the leadership of the institute. While each student will and must familiarise oneself with the objectives as laid down in AIIMS Act, I wish to enunciate some salient principles. We will develop each one of you to become life- long learners, along with the qualities of professionalism, empathy, inclusiveness and humility. Health, as defined by WHO is “a state of complete physical, mental and social well-being, and not merely the absence of disease or infirmity”. This includes spiritual health as part of social wellbeing. You will learn the pillars of health care delivery right from the onset, to include Access, Equity, Quality and Cost while you go through the subjects of anatomy, physiology, biochemistry, community Medicine etc right in the first year. We hope to become the paragon of pedagogic innovations in order to impart knowledge and will develop many teaching-learning methods to optimise learning at personal and group levels. Individual excellence is a must, but it will be in the context of team work, accountability and transparency, so as to deliver patient- centered care. We will create communities wherein each citizen’s healthcare needs are met. Welcome again for a rewarding experience for the next few years at AIIMS wherein we are preparing to train professionals to be among the global best, in Mangalagiri!!

Shramdeep Sinha, IRS

Deputy Director (Administration)
