WELCOME ADDRESS

It is our great honor and pleasure to invite you to the Renal Pathology Conference 2026, organized by the Department of Pathology, AIIMS Mangalagiri, Andhra Pradesh, India, in association with IAPM-AP-CHP, scheduled to be held on 14th & 15th March 2026 at the Auditorium, AIIMS Mangalagiri. AP.

The theme of this year's conference is: "Decoding Renal Pathology: Insights from Basics to Transplantation"

This academic event brings together eminent nephropathologists from leading medical colleges, institutes, and renowned diagnostic centers across the country.

The scientific program includes interactive lectures and discussions on Day 1, followed by a live slide workshop featuring interesting renal biopsy cases, along with a demonstration of immunofluorescence techniques and an engaging Quiz Competition on Day 2.

We assure you a comprehensive learning experience covering both native and transplant renal pathology—from biopsy handling and pattern recognition to interpretation of complex disease spectra. The sessions are carefully designed to benefit both young learners aspiring to pursue nephropathology and practicing pathologists. Postgraduates and residents will particularly find the poster sessions, quiz, and workshop immensely enriching.

The venue itself adds to the charm of this event. The mesmerizing campus of AIIMS Mangalagiri spans over 183 acres, nestled amidst rugged rocky hill ranges, surrounded by lush green slopes and open skies, offering a serene, spacious, pollution-free, and inspiring environment. The campus provides a tranquil backdrop ideal for reflection, learning, and meaningful academic exchange.

We warmly welcome you to be a part of this academic feast.
Save the dates and allow us the privilege of offering our hospitality.
We look forward to your presence.

Sincerely,
Organizing Committee
